

**EPA's State Innovation Grants Workshop
Sponsored by the National Center for Environmental Innovation**

**Measuring Environmental Results:
How to Measure the Performance in Performance-Based Programs**

**February 28, 2005
1:00 - 4:30 p.m.**

AGENDA

Workshop Objective: To provide information explaining the critical nature and mechanics of effectively measuring environmental results. This information is essential to developing successful grant proposals to support performance-based programs and other innovative approaches to environmental management.

- 1:00 - 1:20 p.m. Introductions and Overview**
- 1:20 - 2:00 p.m. Draft Policy on Environmental Results and Outcomes**
- 2:00 - 2:15 p.m. Break**
- 2:15 - 3:30 p.m. Implementing Performance Measurement**
- Why measuring performance matters
 - Definition of terms
 - Logic modeling: How do I measure?
 - What works for *your* program or project?
 - Types of measures
 - Developing the right measures
- 3:30 - 4:30 p.m. Examples, Discussion and Resources**
- 4:30 p.m. Adjourn**
